

NON-ANIMAL ORIGIN ANIMAL FEED PRODUCTS EXPORTED TO TURKEY

The following certificate may only be endorsed for feed materials intended for feeding to animals. No additional certificate or certifications may be endorsed by Veterinary Services for these materials exported to Turkey.

The government of Turkey has not confirmed the acceptability of this certificate for all products. As always, the exporter should have their importer confirm with the appropriate officials within the Turkish government prior to shipment that the certificate meets all necessary requirements. If the exporter requires additional certifications, we recommend that they contact FDA for assistance.

The referenced affidavit must be provided by the **manufacturer** of the exported product, and signed by an official working for the manufacturer that has first hand knowledge of the accuracy of the statement. The affidavit must be presented to the endorsing Veterinary Services office with the certificate, but does not become part of the certificate nor need to be provided to Turkey.
