IMPORT HEALTH REQUIREMENTS OF ARGENTINA FOR DOGS AND CATS EXPORTED FROM THE UNITED STATES

The animals must be accompanied by a health certificate issued and signed by a licensed veterinarian. The certificate shall contain the name and address of the owner, country of origin of the animals, and complete identification of the animal (name, breed, sex and age). In addition the certificate shall show that:

Certification statements

1. The animal(s) were examined within 10 days prior to departure and found to be free of any infectious diseases.

Los animales fueron examinados dentro de los 10 días antes de su exportación y se encontraron sanos y libres de enfermedades infecto-contagiosas.

2. The United States is a country free of African horse sickness and Rift Valley Fever.

Los Estados Unidos es país libre de peste equina Africana y Fiebre del Valle de Rift.

3. The animals have not travelled to regions affected with these diseases.

Los animales no se han trasladado a regiones afectadas por estas enfermedades.

Vaccination:

1. The animal(s) were vaccinated against rabies. The vaccine must be given no greater than 12 months and no sooner than 30 days prior to departure. (The rabies vaccination certificate, which should include date of vaccination, product name and serial number, must accompany the health certificate). Animals vaccinated against rabies for the first time should be vaccinated using a "one-year" vaccine.

Other information:

1. The health certificate must be dated and signed by a licensed veterinarian. The veterinarian's license number must appear on the health certificate.

2. NOTE: Neither Federal endorsement nor Consulate endorsement is required for personal dogs or cats.
